winner of outstanding book award 2000 moral development and education american educational research association winner of the 2000 book award from the moral development education group of the american educational research association urgent environmental problems call for vigorous research and theory on how humans develop a relationship with nature in a series of original research projects peter kahn answers this call for the past eight years kahn has studied children young adults and parents in diverse geographical locations ranging from an economically impoverished black community in houston to a remote village in the brazilian amazon in these studies kahn seeks answers to the following questions how do people value nature and how do they reason morally about environmental degradation do children have a deep connection to the natural world that gets severed by modern society or do such connections emerge if at all later in life with increased cognitive and moral maturity how does culture affect environmental commitments and sensibilities are there universal features in the human relationship with nature kahn s empirical and theoretical findings draw on current work in psychology biology environmental behavior education policy and moral development this scholarly yet accessible book will be of value to practitioners in the social science and environmental fields as well as to informed generalists interested in environmental issues and children

three year old kwara ae children in oceania act as caregivers of their younger siblings but in the uk it is an offense to leave a child under age 14 ears without adult supervision in the efe community in zaire infants routinely use machetes with safety and some skill although u s middle class adults often do not trust young children with knives what explains these marked differences in the capabilities of these children until recently traditional understandings of human development held that a child s development is universal and that children have characteristics and skills that develop independently of cultural processes

barbara rogooff argues however that human development must be understood as a cultural process not simply a biological or psychological one individuals develop as members of a community and their development can only be fully understood by examining the practices and circumstances of their communities

a few years ago roger stone undertook a formidable challenge to travel to representative villages in the tropical corners of the developing world to see how and whether economic development plans had improved the quality of the people s lives while also preserving each region s rich plant and animal life in the nature of development stone reports on his findings and offers a lively prescription for sustainable economic growth that is environmentally sane and economically sound by commercial and missionary airplane bus off road vehicle and dugout canoe and of course by means of wearying foot journeys roger stone reached his far flung destinations all over latin america asia and africa once there he lived walked and talked at length with many diverse peoples the awa of ecuador and colombia the oku who live near kilum mountain in cameroon the hatam of the arfak mountains in indonesia s irian jaya province the resourceful if underequipped wardens of zambia s national park service the fishermen and farmers of a st lucia that caribbean tourists seldom discover while in the amazon basin he found sad tales of people without a future and of relentless environmental losses more often though he returned with stories of hope and encouragement for as the nature of development shows conservation and economic development agencies can work together and the governments of poor and rich countries alike can cooperate to improve human lives and stop disastrous ecological losses in the world s richest habitats as new imperatives replace the global preoccupation with warfare and reckless modes of development stone s book carries a resonant and important message about how we have mistreated our habitats in the past and how we can achieve a new environmental world order

in language its nature development and origin otto jespersen explores the intricate tapestry of language considering its biological psychological and social dimensions through a rigorous linguistic framework jespersen employs a descriptive and analytical style that deftly combines historical linguistics with contemporary insights revealing the evolution of language as a dynamic and living system he delves into concepts such as phonetics syntax and semantics

while situating linguistic development within broader cultural and historical contexts making it an essential text for understanding the complexities of human communication otto jespersen a prominent danish linguist and a pioneering figure in the field of english grammar draws on his extensive academic background to craft this seminal work his experiences in the rapidly evolving landscape of european languages during the late 19th and early 20th centuries likely informed his inquiry into language origins and classifications jespersen s ability to synthesize various linguistic theories showcases his commitment to the scientific study of language making him a respected authority in the field this book is highly recommended for scholars students and language enthusiasts alike offering profound insights into the essence of language itself jespersen s thoughtful analysis invites readers to reflect on their own linguistic experiences while providing a comprehensive foundation for further exploration in the spheres of linguistics and semiotics

focuses on environmental change and human fortunes while there is a large and rapidly expanding literature dealing with how people affect the environment less attention has been given in recent years to how the environment shapes human development it also addresses key issues such as soil degradation natural climatic variations and volcanic activity provides geography and earth sciences students with an essential introduction to the major debates surrounding this topic
